# SILT STOPPER

**The Silt Stopper stays in year round to keep out larger debris such as cans, sticks, leaves, and more while not restricting water flow.**

**The Silt Stopper can hold over 300 pounds of silt. Strong enough for a man, but made for silt.**

## Installation Instructions

1. Remove Grate
2. Insert Silt Saver frame with the curb guard towards the back of the curb. (if curb guard is required)
3. Insert silt bag into Silt Stopper frame netting
4. Use velcro tabs to attach bag to frame (this will hold the bag in place while you set the grate in place)
5. Set Grate back into catch basin frame

## Cleaning Instructions

1. Remove Grate
2. If bag has over 5" of silt use shovel for removal to lighten load
3. Use black handles on sides to remove bag and discard the silt
4. install the silt bag using the above instructions
